khulan.dev

I am a software developer at the intersection of product, design, and engineering. I have over seven years of experience designing, building, and improving web applications, frameworks, platforms, and automations and three years of experience managing engineering teams. I specialize in front-end development and web analytics.

### Education

**Georgia Institute of Technology**  
M.S. Computer Science  
Expected 2023

**University of Illinois at Urbana-Champaign**  
B.S. Computer Science  
*Mathematics Minor*  
2011 - 2015

### Skills

#### Programming Languages

- JavaScript
- TypeScript
- HTML
- CSS
- Kotlin
- Java
- Python

#### Libraries + Frameworks

- React
- Material UI
- PostCSS
- Emotion
- Redux
- Jest
- React Testing Library
- Cypress
- Node.js
- Spring Boot

#### Databases

- MongoDB
- PostgreSQL
- Elasticsearch

#### Misc.

- Adobe Analytics
- Agile Development
- Git
- NPM
- CSS-in-JS

### Work Experience

**Global Co-Head of Engineering** Jan 2021 – Present  
Goldman Sachs | Louisa | Vice President

Co-leading a global, cross-functional team of over 35 engineers. Establishing an engineering culture of growth, collaboration, and technical excellence. Contributed to a 10x growth in application usage in partnership with multi-disciplinary teams across the organization.

**Engineering Manager / Tech Lead** Jun 2019 – Dec 2020  
Goldman Sachs | Louisa | Associate

Led a team of over 10 engineers for a former GS Accelerate business with the goal of mapping the expertise and relationships of the firm. Architected and implemented our front-end engineering strategy and delivered users an engaging experience in collaboration with User Research, Product, and Design teams.

**Senior Software Developer** Jan 2018 – May 2019  
Goldman Sachs | Compliance | Associate

Collaborated with Compliance Analysts and Product teams to develop a core platform used to monitor, resolve, and escalate potential compliance alerts. Led the design and implementation of the case and exception management component of the platform.

**Software Developer** Jul 2015 – Dec 2017  
Goldman Sachs | Core Platforms | Analyst

Designed and developed automation and integrations for critical workplace products and applications related to email, voice, multimedia, and mobile systems. Architected and built a reusable library to provide transparency into automation workflows complete with auditing and visualization.

### Activities

**BCG Digital Ventures Hackathon** Nov 2019

Developed a digital platform, Carry, to help bridge the information gap between Cognitive Behavioral Therapists and their patients.

**NASA Intl. Space Apps Challenge** Oct 2018

Developed a mobile application to help internally displaced people find the most optimal IDP camp to quickly find shelter and get assistance.

**48in48 Hackathon** Oct 2018

Developed a website for the non-profit organization Robin Becker Dance.

**Thorn Hackathon** Nov 2017

Developed a content screening system prototype in support of Thorn's mission to build technology to defend children against sexual abuse.
